OUR HISTORY

Launched in Dubai in 2005, Artisans started as an Interior Design and Contracting company.

OUR LEADERSHIP

Managed by a team of qualified and experienced professionals who together share a profound love for design, entrepreneurship, value creation and innovation. Using ‘design’ as a language of communication, and led by strong principles of management and business ethics, Artisans hopes to create experiences and build relationships with its customers and partners like, that are above and beyond the ordinary.

OUR PHILOSOPHY

We adopt a ‘people-centric’ approach with our work. People matter; our customers, team, partners as well as the people who we create the spaces for.

We are so fascinated by the effect of interiors on people who use them and how these spaces create certain moods and behaviours in people. We believe that spaces play a host to the people who use them and it is therefore important for them to be designed with care and consideration so that people can thrive and enjoy the space at the same time.

We hope to create experiences through the interiors we help to create that enhance and amplify the lives of those who use them.

Customer satisfaction is paramount to the ethos of our business and we go the extra mile to create that. We’d like to think that we are a bunch of good & honest people to work with!

OUR MISSION

To provide exemplary customer service to our clients combined with a specialist product range for commercial, educational, residential and public sectors.
